Notice of Fee Increase on January 1, 2003

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after January 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on January 1, 2003. See Revision of Patent and Trademark Fees for Fiscal Year 2003; Final Rule, 67 Fed. Reg. 70847, 70849 (November 27, 2002).

The current fee schedule is accessible from: <http://www.uspto.gov/main/howtofees.htm>.

If the issue fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due," but not the correct amount in view of the fee increase, a "Notice to Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice to Pay Balance of Issue Fee," if the response to the Notice of Allowance and Fee(s) due form is to be filed on or after January 1, 2003 (or mailed with a certificate of mailing on or after January 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

The application has been amended as follows:

- Please amend claim 1 as follow:

1. A circuit board assembly, which is especially effective for insertion and removal from a cabinet or an enclosure even when fully populated with printed circuit cards, said circuit board assembly comprising:

a printed circuit board, having a first side and a second side, and also having a circuit board edge connector disposed along one edge of said board and further including at least one printed circuit card connector disposed on said first side of said board;

a nonconductive planar supporting base substantially coextensive with said printed circuit board and disposed on said second side of said printed circuit board; and

a stiffener disposed on another edge opposite to said one edge and also on said first side of said printed circuit board, said stiffener also being substantially coextensive with said printed circuit board.

2. The following is an examiner's statement of reasons for allowance:

Claims 1-9 are allowed.
